Data Submission, Issues, and New Data System

IOWA DEPARTMENT OF PUBLIC HEALTH

Protecting and Improving the Health of Iowans

Data Submission: Treatment

- Substance Use Disorder Treatment: Central Data Repository (CDR)
  - Allows for electronic submission of the data via:
    - Data uploaded from I-SMART; OR
    - Data received from provider electronic health records
  - Guidance
    - https://www.idph.iowa.gov/ismart (see Data Entry Guide Updates under “Support Documentation”)
    - Iowa Reporting Role Training (July 16, 2019 2:30-4:30 PM)
    - SUD I-SMART and CDR Data Entry Matrix (January 2019)

Data Submission: Treatment

- Gambling Treatment:
  - Gambling Domain in I-SMART
- Guidance
  - https://www.idph.iowa.gov/igtp/treatment
    - IGTP Data Integrity Reports Manual
    - I-SMART Problem Gambling Domain Data Entry User Guide and Manual

Data Submission: Prevention

- I-SMART: Process data (who did what, when, and where) including IOM classifications, SPF steps, and SAMHSA Prevention Services Categories
- Qualtrics: Outcome data from recurring programs (pre-post design)
- I-SMART Prevention User Manual (coming soon to IPN page)
- How to Avoid Data Revisions webinar: July 11, 2019
- I-SMART Prevention Reports: under development

Issues and Recommendations

- Be familiar with IDPH-issued guidance documents
- Updates are announced via GovDelivery and/or IPN listservs
- Submit data regularly; data due no later than the fifteenth day of the following month
- Prevention data reporting: I-SMART regular reporting; Qualtrics ebb and flow
- I-SMART Help Desk vs. IPN Help Desk

New Treatment Data System

- IDPH Goal: Reduce collection of un-needed data; utilize validation process for all data submitted; and integrate problem gambling (PG) and substance use disorder (SUD) treatment data.
- Process: Start with TEDS requirements. IDPH then assessed what other data may be needed, looking to streamline and reduce the data collection process.
- Applicable to all SUD and PG treatment providers.

New Treatment Data System: Tentative Timeline

- 2019 late Fall: System specs released
- 1/1/20: System available for testing
- 7/1/20: System live
- Fall 2019-2020: TA webinars

New Treatment Data System

Additions:

Quality of Life

Overdose

Mental Health (limited, with future in mind)

Demographics

Removals:

Demographics

Debts

Crime

*Streamlined service reporting
