

Types of Certification/Credentials

- Laboratory - Organization certified to analyze radon levels of tests conducted in Iowa.
- Mitigator - Person trained and credentialed to install radon reduction systems in Iowa.
- Specialist - Person trained and certified to conduct radon tests in Iowa.

Measurement Units

- pCi/L = picocuries per liter, radon gas measurement units
- WL = Working-Level, radon decay product measurement units

Common Radon Test Methods and Units in Which Units Are Reported

- AT Alpha-Track Detection (pCi/L)
- CC Activated Charcoal Absorption (pCi/L)
- CR Continuous Radon Monitoring (pCi/L)
- EP Electret-Ion Chamber (pCi/L)
- LS Charcoal Liquid Scintillation (pCi/L)
- UT Unfiltered Track Detection (pCi/L)
