1-888-425-4371

Early ACCESS (EA) focuses on helping caregivers of eligible children support their children's learning and growing through everyday activities and child/family routines.

EA is for families with infants and toddlers who have either...

★ a health or physical condition affecting their growth and development **or...**

★ a delay in their ability to play, think, hear, see, eat, talk or move.

A service coordinator will contact you within 5-7 days to set up a time to evaluate your child to see if they qualify.
