EMS Program ReAuthorization Checklist

This document has been developed to assist Iowa EMS programs with identifying, developing, and maintaining requirements for continued authorization and reauthorization of their service program. It is recommended that each service program utilize this checklist on a quarterly basis to ensure that your services records and documents remain compliant at all times. This document should also be used to identify documents that will need to be uploaded into your service program's AMANDA folder. Required documents shall be uploaded 90 days prior to your service program's authorization/reauthorization inspection. Bureau staff will review documentation uploaded into your service's AMANDA file and may ask for additional documents or information to be uploaded prior to the scheduled on-site inspection date. For online reauthorization inspections, complete this checklist and upload it to your services AMANDA folder. If you have any questions please contact your regional coordinator.
