Certificate Expiration Date: _____

A child granted a medical exemption may be excluded from child care or school during a disease outbreak. The length of time a child is excluded from child care or school will vary depending on the type of disease and the circumstances surrounding the outbreak, and could range from several days to over a month. A Certificate of Immunization Exemption for medical reasons is valid only when signed by an Iowa licensed physician, nurse practitioner, or physician assistant.

By signing this certificate, I certify the immunizations specified on this certificate would be injurious to the health of the applicant, to a member of the applicant's family or household or the required vaccine would violate the minimum interval spacing.

Iowa Department of Public Health Certificate of Immunization Exemption Religious Exemption

Name Last: _____ First: _____ Middle: _____ Date of Birth: _____

A religious exemption may be granted to an applicant only if immunization conflicts with a genuine and sincere religious belief. A Certificate of Immunization Exemption for religious reasons shall be signed by the applicant or, if the applicant is a minor, by the parent or guardian or legally authorized representative. By signing this certificate you are attesting that the immunization conflicts with a genuine and sincere religious belief and that the belief is in fact religious, and not based merely on philosophical, scientific, moral, personal, or medical opposition to immunizations. The Certificate of Immunization Exemption for religious reasons is valid only when notarized. A child granted a religious exemption may be excluded from child care or school during a disease outbreak. The length of time a child is excluded from child care or school will vary depending on the type of disease and the circumstances surrounding the outbreak, and could range from several days to over a month.

By signing this form, I acknowledge the Iowa Department of Public Health has published information regarding immunizations on the Department's website, including:

- Information that failure to complete the required immunizations increases the risk to my child and others of contracting, carrying, and spreading a vaccine-preventable disease; and
- Information that there are children with special health needs attending schools and child care who are unable to be vaccinated or who are at a heightened risk of contracting a vaccine-preventable disease and for whom such a disease could be life-threatening.

REVIEWING THE IMMUNIZATION CERTIFICATES

1. Request a list of students for each grade level or child care program to assure each child is included in the total enrollment and has an immunization certificate or certificate of immunization exemption on file.
2. For reporting purposes, separate the number of valid immunization certificates, religious exemptions, medical exemptions, provisional certificates, and certificates that are not valid or are missing. This must be done for each grade level, home-schooled students, and child care age in months.

REVIEWING THE IMMUNIZATION CERTIFICATES

3. Assess the record for required elements (student name, date of birth, appropriate signatures, vaccines and dates administered, etc).
4. Review the total number of doses required for each vaccine series based on the child's age in months (childcare) or K-12 age level.
5. Additionally, review the minimum ages and minimum interval spacing requirements between doses in a vaccine series. (Iowa immunization requirements follow ACIP recommendations for minimum ages and intervals).

REVIEWING THE IMMUNIZATION CERTIFICATES

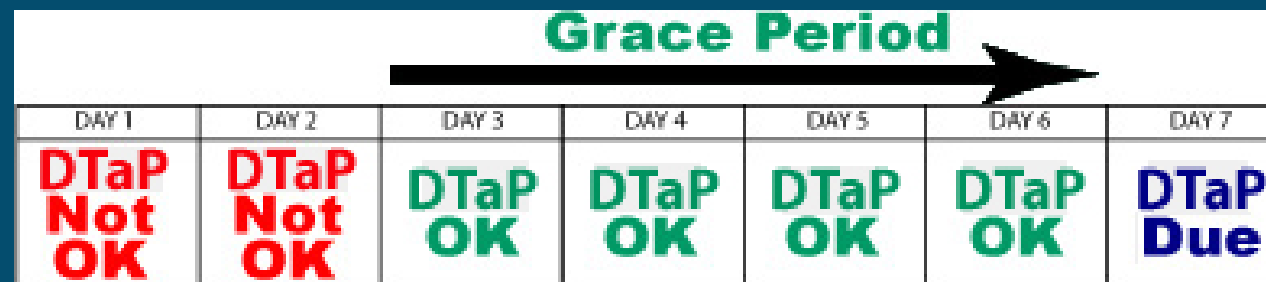

- Some immunization requirements are being phased in. It is important to look at the grade level of the student and date of birth for certain school age requirements such as Meningococcal A, C, W, Y vaccine
- When a child has fallen behind on immunizations, he or she may not need as many total doses in a vaccine series or may not need the vaccine at all (e.g., the 5th dose of DTaP is not necessary if the 4th dose was administered on or after 4 years of age; Hib and PCV vaccines are not required for children 60 months of age or older)
- Assure the vaccine listed on the Certificate of Immunization is the vaccine included in the requirement (Tdap vs Td)

4 DAY GRACE PERIOD

Iowa Immunization Code allows for a 4-day grace period. The 4-day grace period should not be applied to the interval between live vaccines.

7.4(2) Vaccine doses administered less than or equal to 4 days before the minimum interval or age shall be counted as valid. Doses administered greater than or equal to 5 days earlier than the minimum interval or age shall not be counted as valid doses and shall be repeated as appropriate.

Day 1 is the day before the day that marks the minimum age or minimum interval for a vaccine

How to Find a Child Care Provider to Meet Your Needs

For the search to work you must at least enter something in the "Search by Name" or "Search by Location" box. Then you may narrow your search by adding as many other conditions as you like to locate a child care provider that will meet your needs.

If you enter a ZIP code or an address and city the search will locate providers within a certain distance of that ZIP code or address. You can specify the distance in the "Select Distance" dropdown.

When you are through, click the Search button at the bottom of the screen to locate child care providers that meet your requirements.

To erase all your requirements and start over, click the Clear button.

This website is NOT intended to be used as a referral source. For further assistance in finding a child care provider who can meet the unique needs of your family, please contact the Child Care Resource & Referral Agency (CCR&R) serving the county you live in by using either their state website at <http://www.iowaccrr.org/> or call (toll free) 877-216-8481.

If you have questions about any of these providers, you can also contact the DHS Centralized Child Care Assistance Unit in Des Moines by email at crsacca@dhs.state.ia.us or call (toll free) 866-448-4605.
