

SOR SUSTAINABILITY PLANNING

Site: _____

City: _____

- 1. Describe your organization's intentions to sustain or expand MAT and/or recovery support services beyond the SOR grant.**
- 2. Describe your organization's plans to sustain current MAT and/or recovery support services beyond the SOR grant.**
- 3. Describe how you are working in partnership with others in the state (including other providers and state-level stakeholders) to work towards long-term sustainability, and identify and address barriers.**
- 4. What are the current or anticipated challenges you are encountering that may impact your ability to sustain MAT and/or recovery support services?**
- 5. Describe how you are working to maximize billing opportunities, identify your actual costs, and succeed under value-based payment arrangements (if available.)**

6. Describe the process you are using to obtain all the required SOR data including the GPRA, other outcomes and your agency’s plans to use this data to support sustainability plans. How is the data being used to improve access and retention of treatment services as well as demonstrate positive impact and health outcomes?

7. What additional concerns and/or technical assistance needs do you have about sustaining MAT and/or recovery support services after the SOR grant?

8. NEXT STEPS:

<i>What are the top three areas that your agency will focus on moving forward in terms of sustainability of the SOR program?</i>	1.
	2.
	3.
